MISS ALMA HARRISON A New York show girl, is here shown as she recently appeared among the thousands of theater-goers on Broadway, wearing the new spring style in footgear, consisting of sandais and toerings. While Miss Harrison is an unusually prefty young woman, most of the startled Broadwayites had eyes for nothing but her dainty pink feet, toes sparkling with gems, and naught but sandais separating her soles from the hard pavement. THE SPRING WEAR

Among the novelties in white goods now appearing in the shops are the most charming patterns in white ratine and heavy white cotton crepes yet seen. The ratines offer unusual checked and plainted effects in raised and knotted

threads posed upon loosely but very firm-ly woven backgrounds.

In fact, the pattern of one white checked ratine duplicated rice braid designs in bewildering variety, while another had simulated crocheted knots placed at regular intervals upon a surface of Mexican

drawn work design. Striped effects in white cottons are also o the fore. Very broad stripes are said be the most chic, and this design will offered in colored cottons, as well as the all white fabrics.

vogue the coming season.

These trimmings will also vie in popularity with the beautifully embroidered bands and edgings of mull and lawn for the decoration of colored cotton dresses of all descriptions.

INITIALING.

Some women will trot from one small shop to another in their neighborhood, searching for the initial of which the shops are "just out." while, with a thought or two before the trip, they could have saved themselves innumerable steps. A word to you, fair needleworker. Whenever you see an initial in magazine or newspaper that pleases you and you think would work up well, clip it out and save it for tracing on to some piec of linen that, before long, will need ini-tialing. Cut out a large bit of paper about the initial, place a bit of tracing paper between the initial and the linen with a pencil or something pointed, yet not so sharp as to cut through the paper, and your initial will be transferred to the linen. to be initialed, and trace over the initial

A very inexpensive stain can be made from burnt umber and hot water. Five cents' worth of the burnt umber will stain several floors; that is, where a rug is used for the center. Pour the hot water over the burnt umber, little at a time, till it is thoroughly dissolved. Use a quart of hot water to 5 cents worth of the material and quart of hot water to 5 cents worth of umber; that makes a pretty dark brown stain. Let it dry, then rub on any good floor wax and polish.

Recently, a young married man wrote me: "Although I have married the dearest little girl on earth, I am not happy. The cause of my unrest is that there is another woman in the case. I was engaged to a girl whom I loved dearly. We had a quarrel, and, in a moment of pique, she married another. I put her out of my life, or thought I had done so. Meeting afterward a sweet young woman whose companionship was soothing and congenial, I wooed and wed her without telling her of my early romance.
